

VIVÆUR

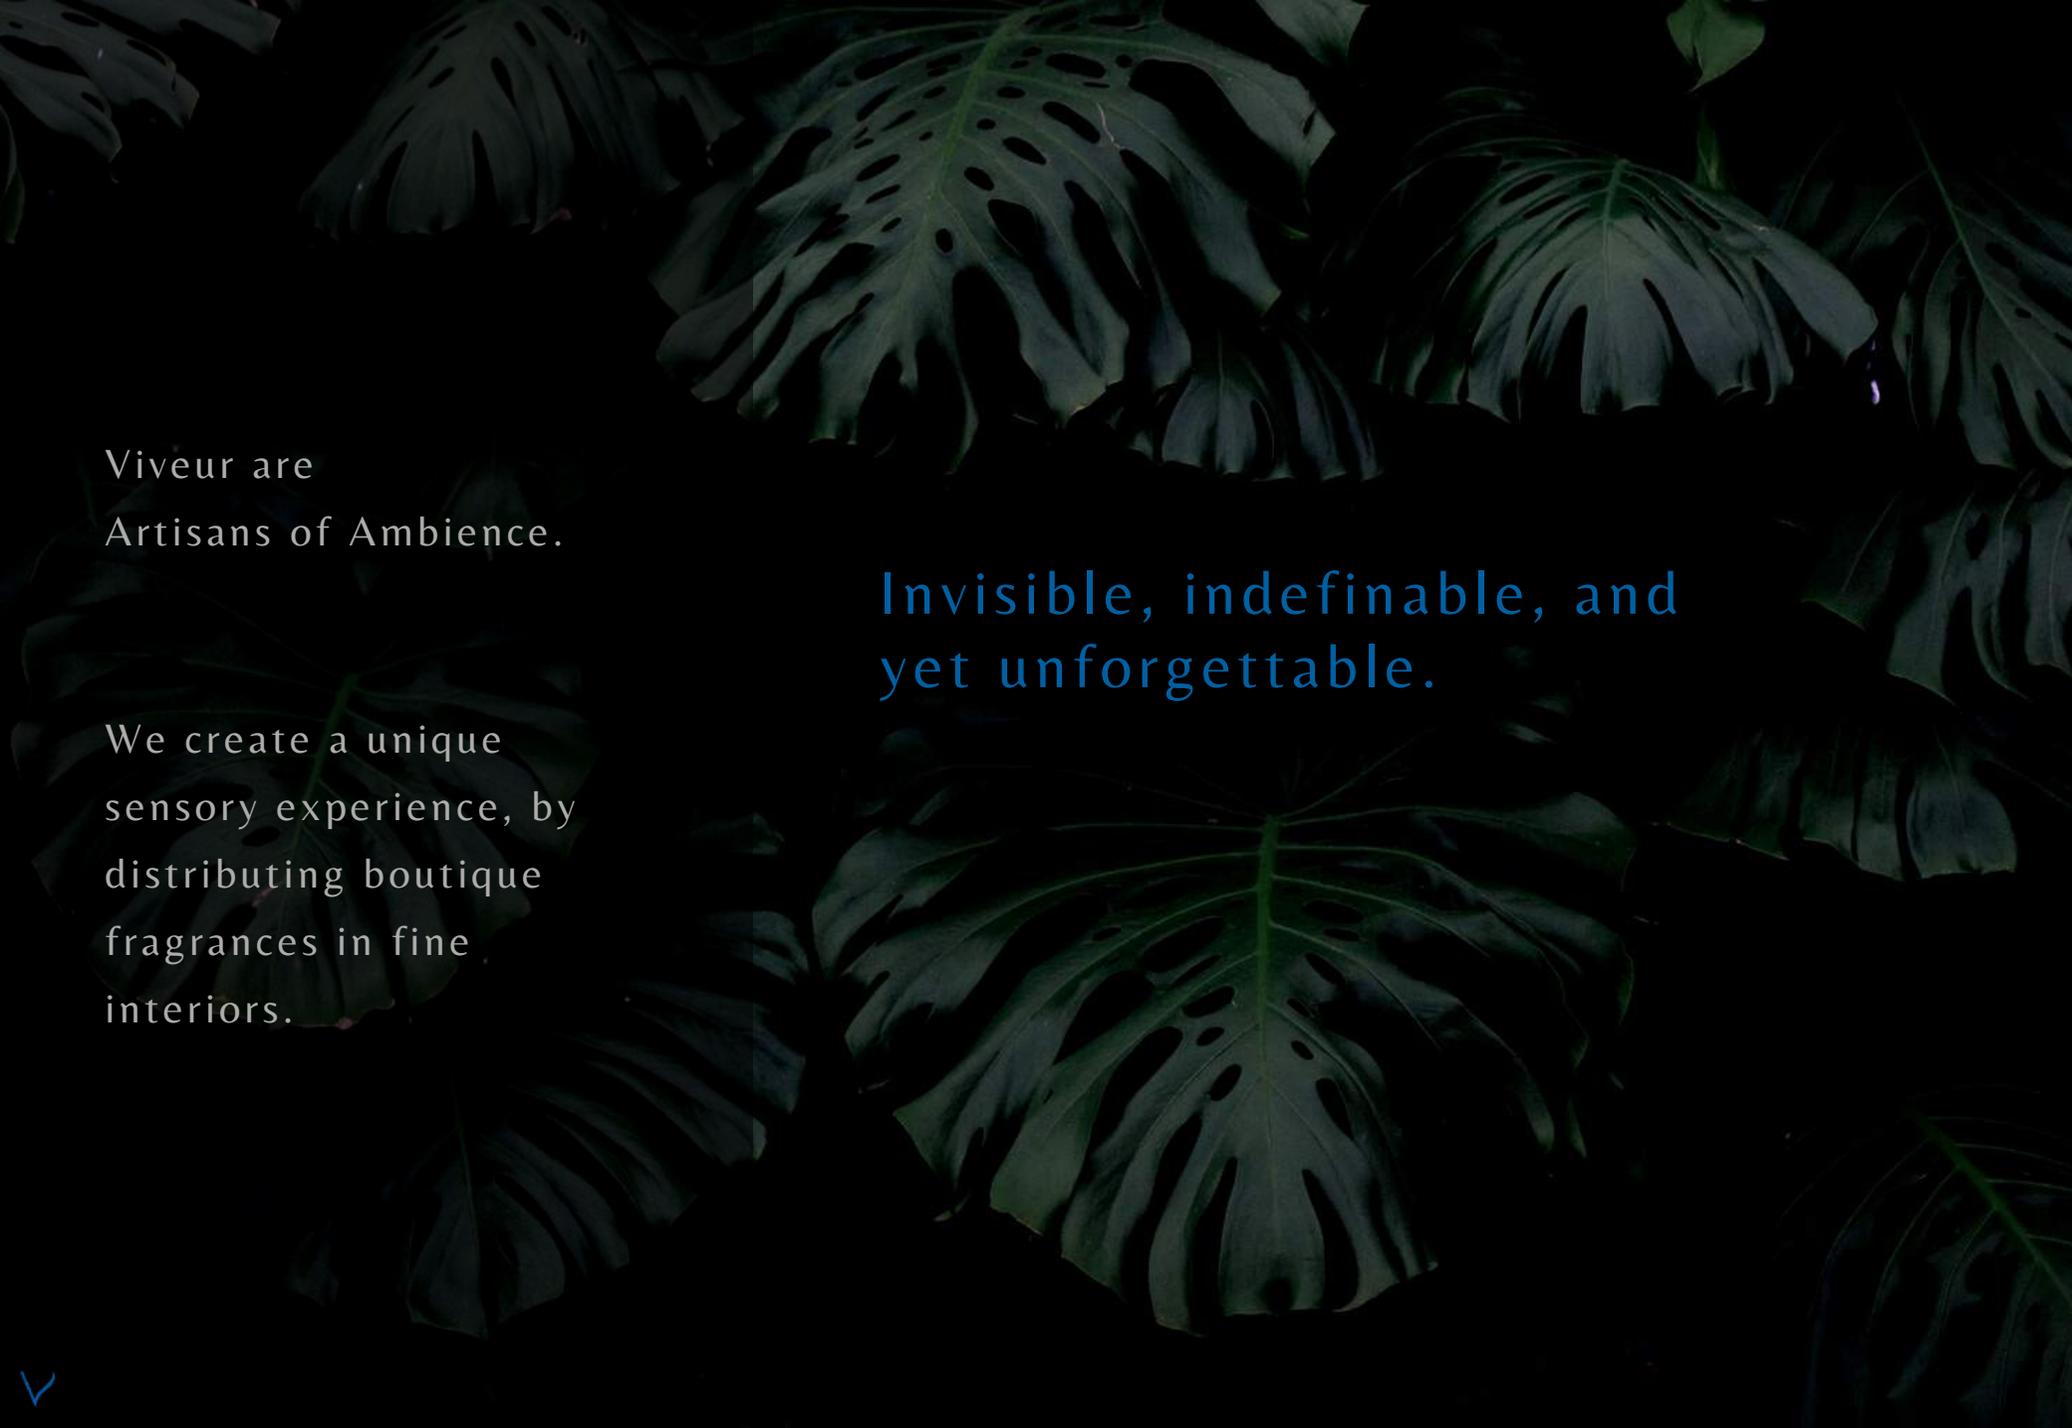

artisans of

Volante v6C

fragrance diffusion

ambiance

Viveur are
Artisans of Ambience.

We create a unique
sensory experience, by
distributing boutique
fragrances in fine
interiors.

Invisible, indefinable, and
yet unforgettable.

Volante v6C is the sixth-generation fragrance diffusion device from Viveur.

Utilising our purpose-built technology, we distribute the fragrances from **Master Perfumer Lorenzo Dante Ferro** into the atmosphere.

Volante V6C offers an exclusive sensory experience, making your environment truly memorable.

Volante v6C is a customised fragrancing system, purpose-built for super-luxury environments.

FEATURES

Variable speed distribution pumps offer accurate control of fragrance intensity

Air diffusion technology preserves the integrity of the fragrance

Concealed in plant spaces to avoid any aesthetic impact on interiors

Powerful distribution allowing long distances between equipment and interiors

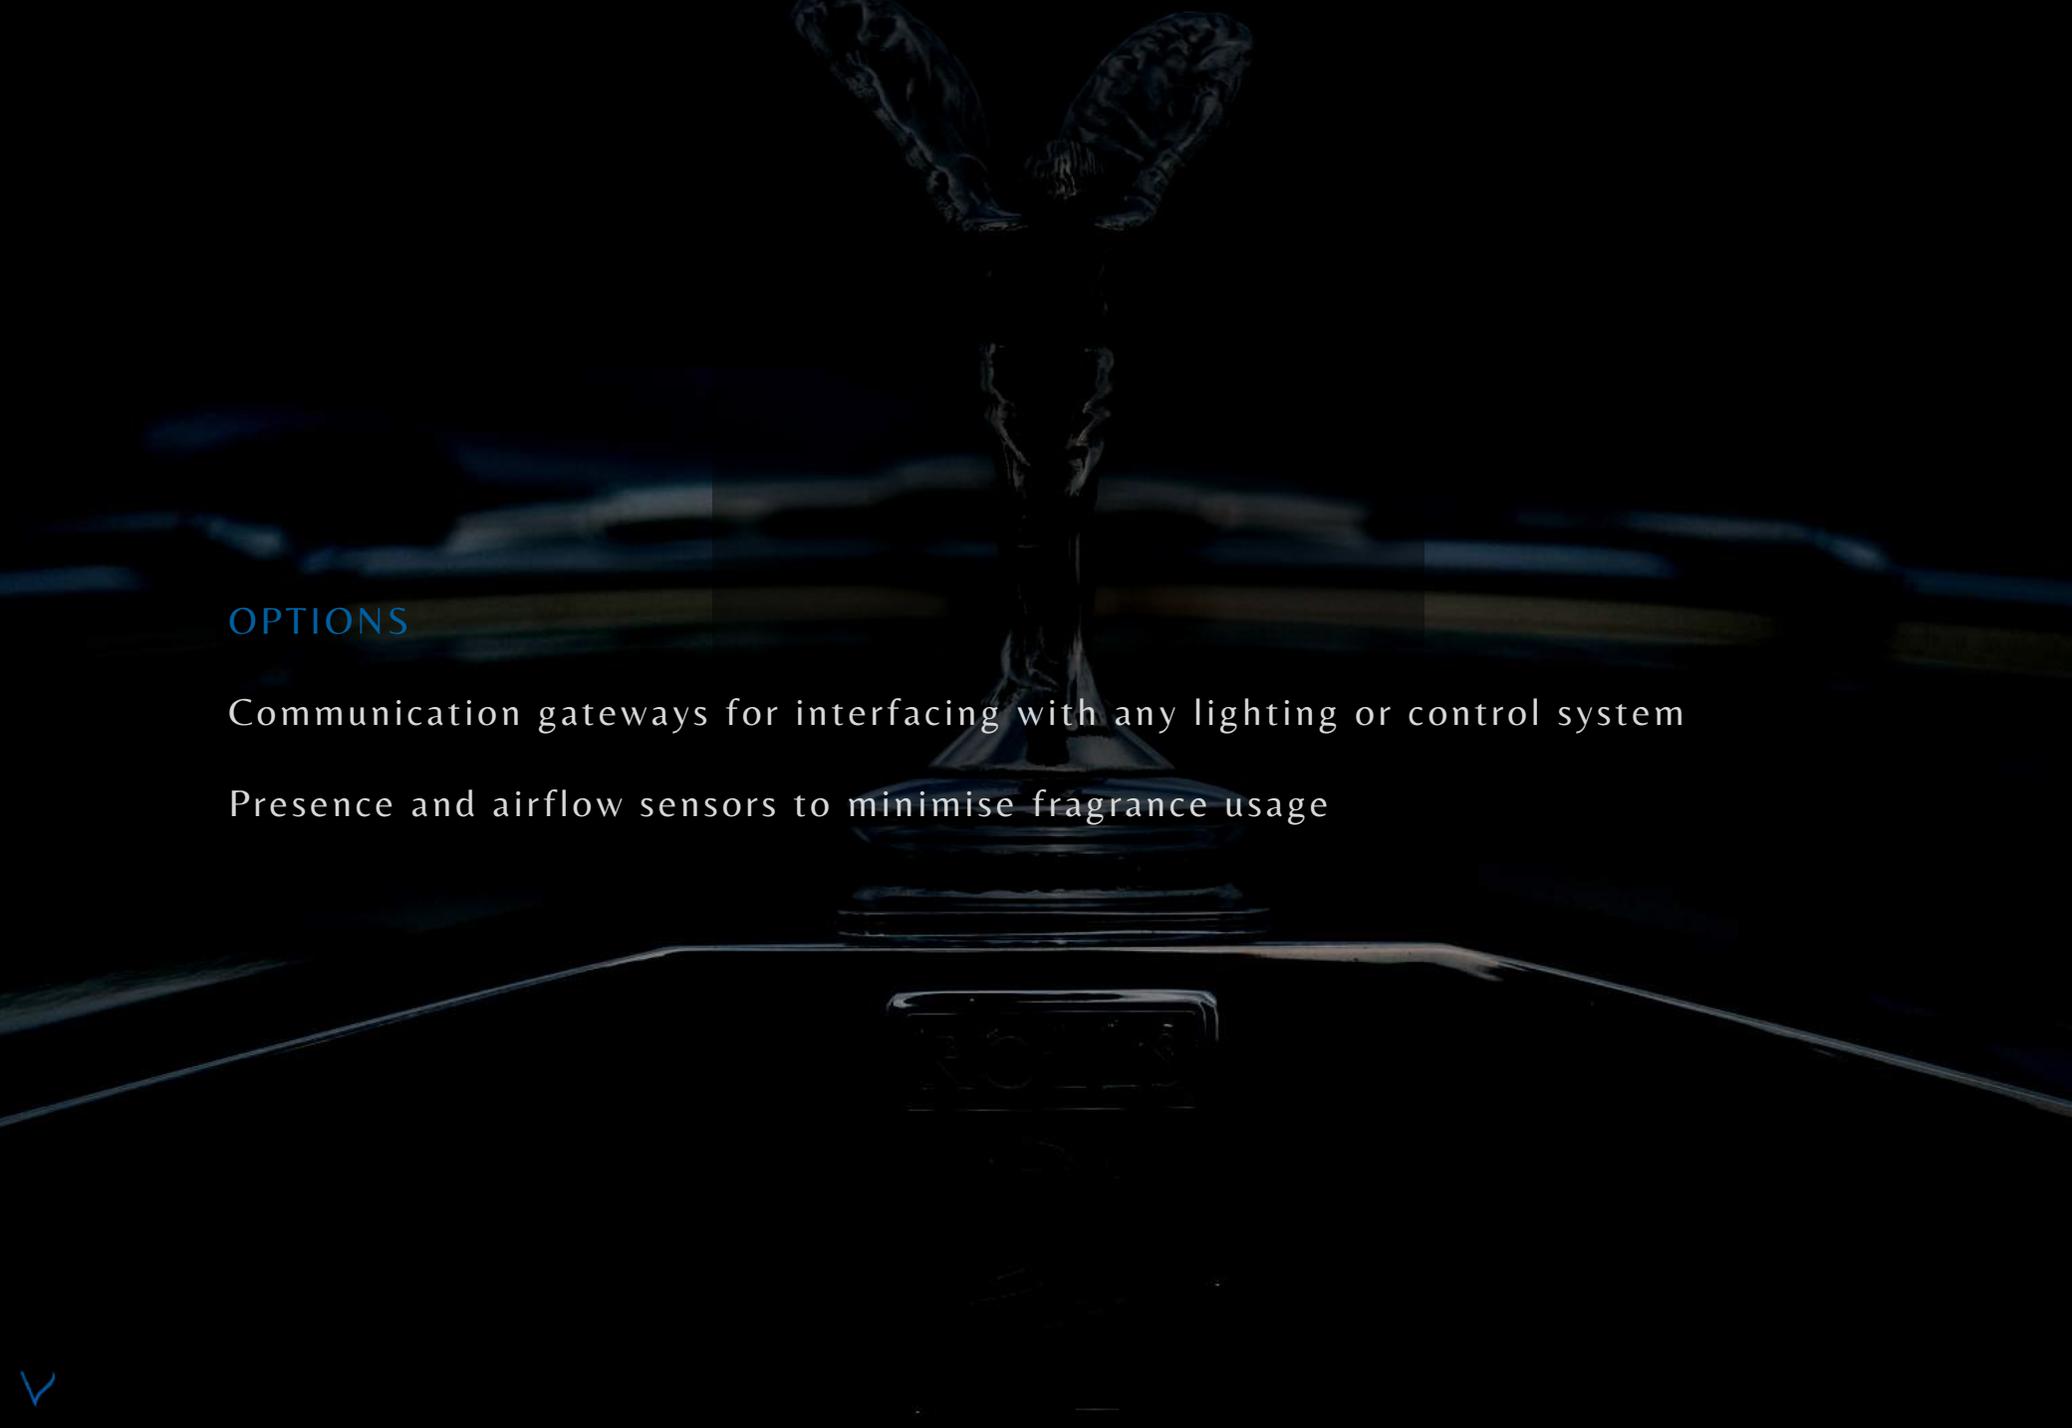

Wireless mesh control technology for easy setup, autonomous operation, zero control cabling requirements, and flexible grouping for large spaces.

Easy to retrofit in existing interiors

Easy-change cartridge system, reducing maintenance time

Made in Britain, from European supply chains

The image features a classic Rolls-Royce Spirit of Ecstasy figurine, a silver-colored sculpture of a woman with her wings spread, standing on a tiered base. The figurine is centered in the frame against a dark, almost black background. A soft, blue, ethereal light emanates from behind the figurine, creating a subtle glow and highlighting its contours. The overall aesthetic is sophisticated and elegant.

OPTIONS

Communication gateways for interfacing with any lighting or control system

Presence and airflow sensors to minimise fragrance usage

Power Supply – 12v DC,
mains adaptor provided

Airflow switch
connection

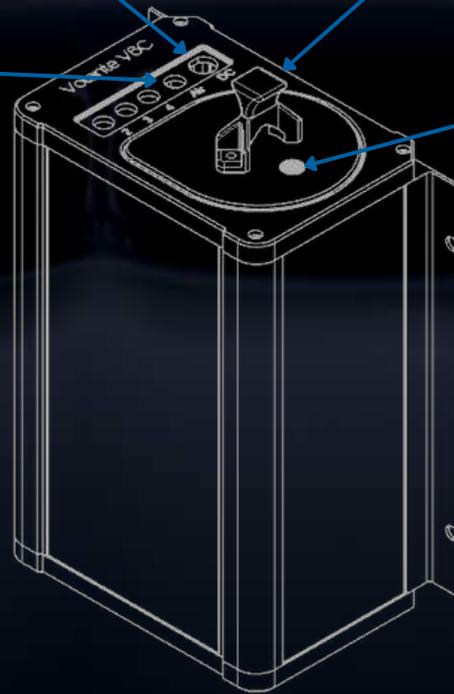

Handle for easy
cartridge removal

Fragrance outlet
via 8 mm rigid hose

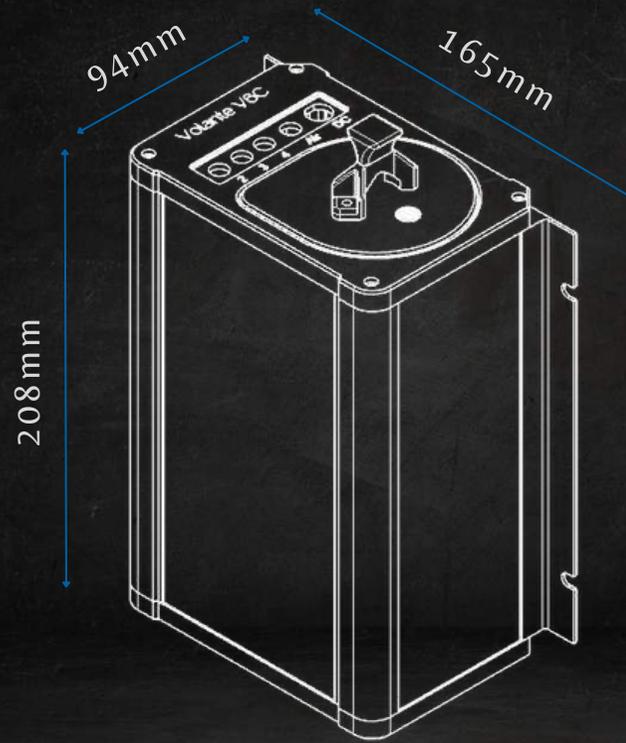

Vibration-proof
mountings included

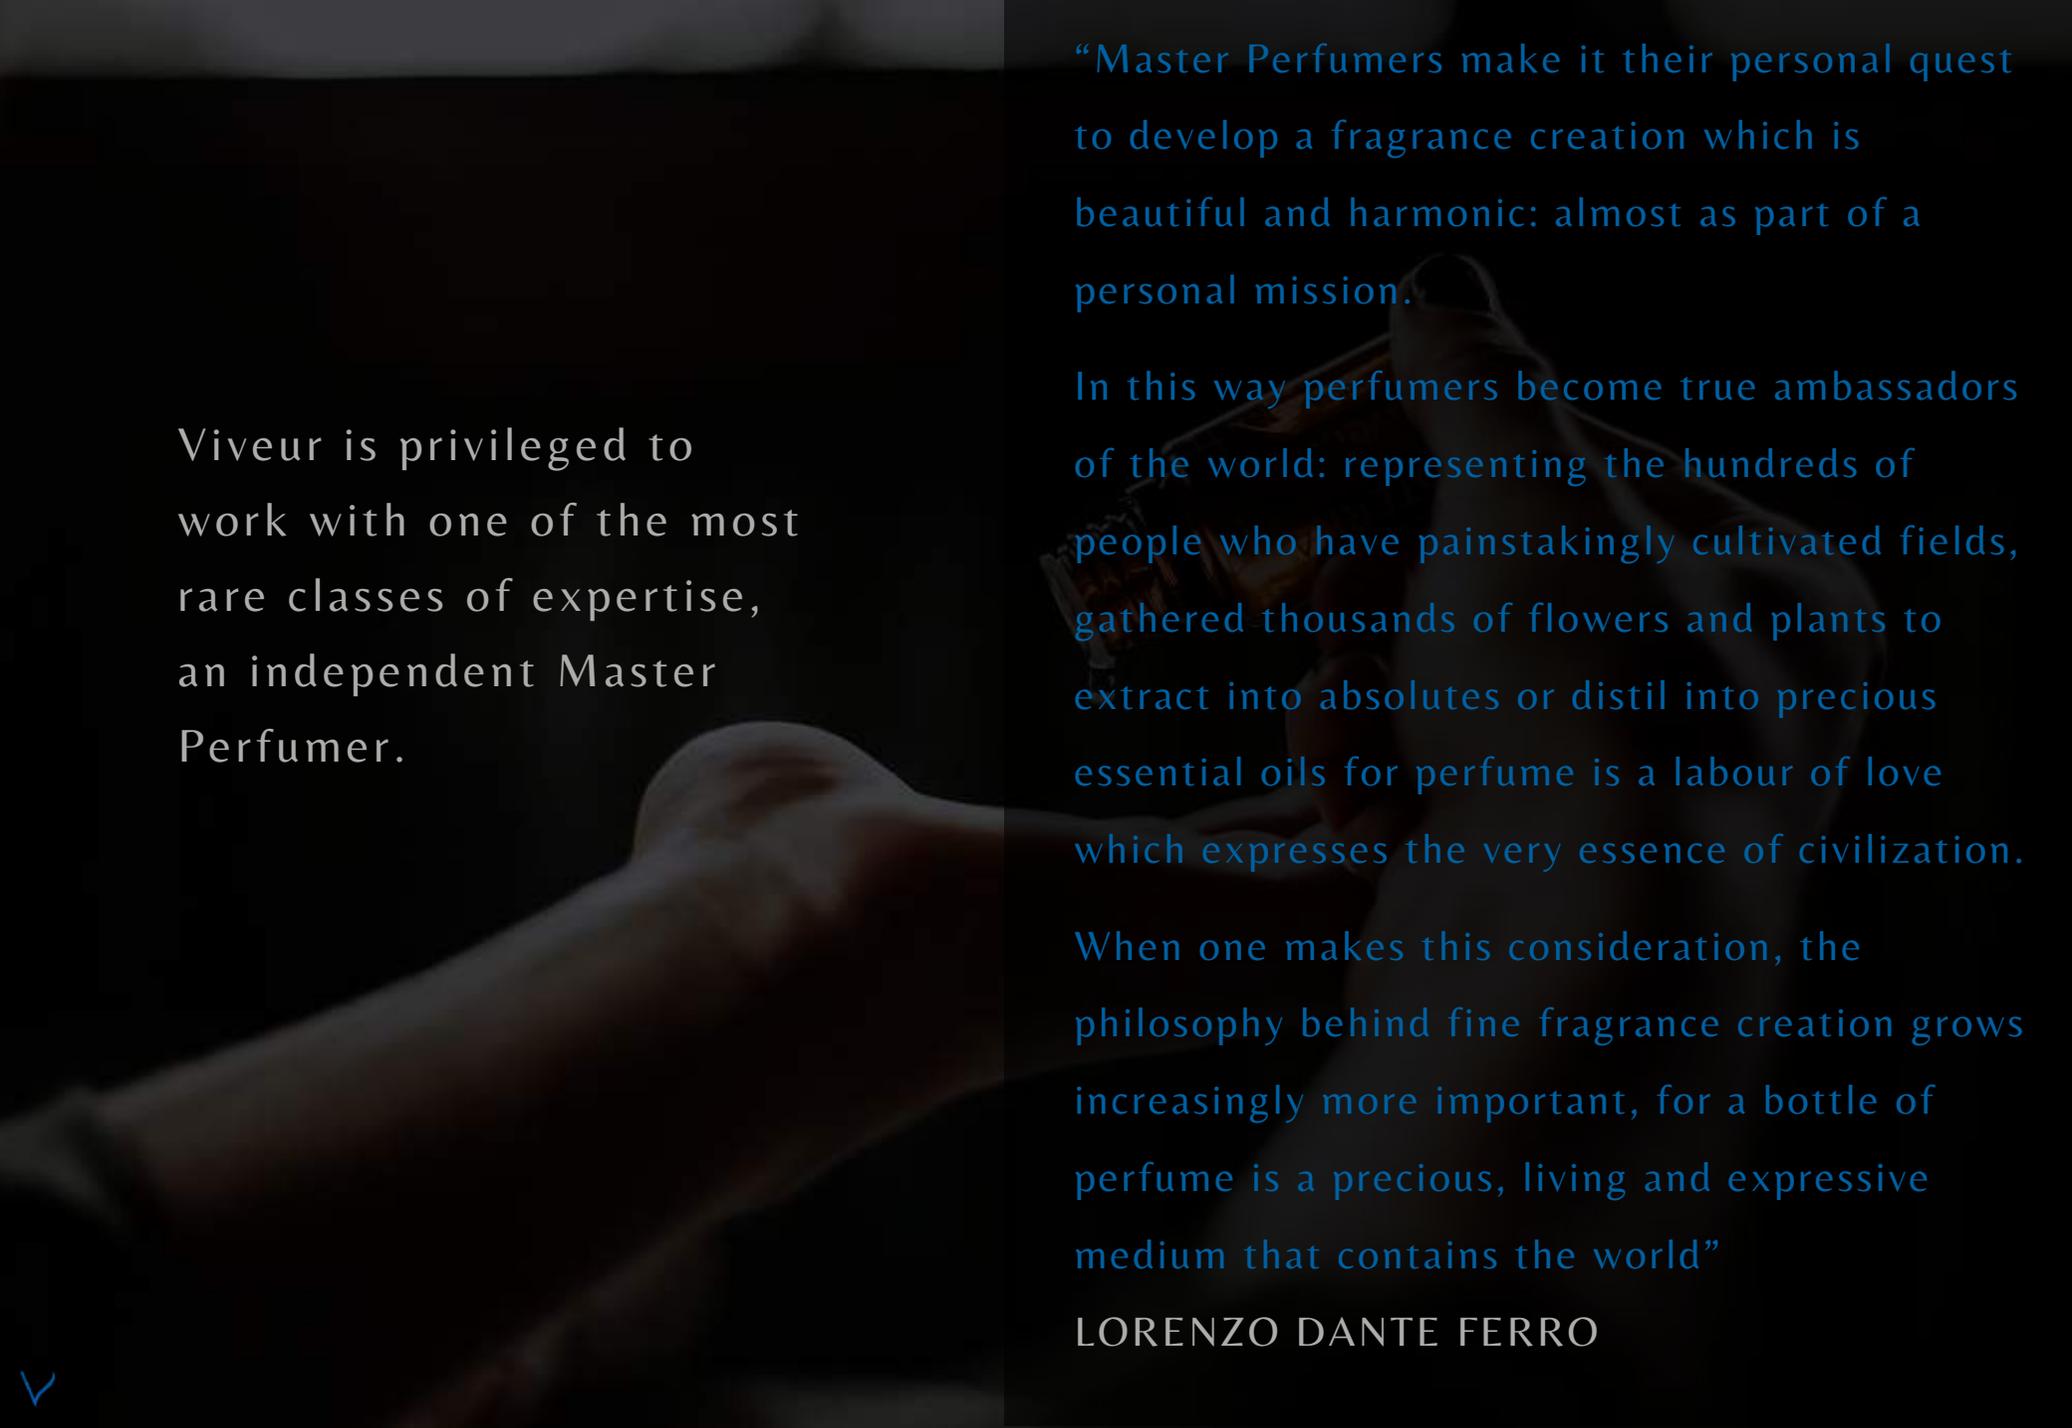

Mounting position is
recommended in plant spaces

Recommended distance from
outlet – approx. 10m, or
more if approved in advance

200mm space required
above for hose outlet and
cartridge removal

A person's hands are shown holding a perfume bottle against a dark background. The hands are positioned in the center-right of the frame, with the fingers gently gripping the bottle. The lighting is soft, highlighting the contours of the hands and the bottle. The background is a deep, dark color, possibly black or dark grey, which makes the hands and the bottle stand out. The overall mood is elegant and sophisticated.

Viveur is privileged to work with one of the most rare classes of expertise, an independent Master Perfumer.

“Master Perfumers make it their personal quest to develop a fragrance creation which is beautiful and harmonic: almost as part of a personal mission.

In this way perfumers become true ambassadors of the world: representing the hundreds of people who have painstakingly cultivated fields, gathered thousands of flowers and plants to extract into absolutes or distil into precious essential oils for perfume is a labour of love which expresses the very essence of civilization.

When one makes this consideration, the philosophy behind fine fragrance creation grows increasingly more important, for a bottle of perfume is a precious, living and expressive medium that contains the world”
